

The ultimate solution to vehicle theft

Designed and developed in South Africa, Titan Secure is the top choice for safeguarding vehicles against theft. Our advanced features provide peace of mind to vehicle owners and prevent theft effectively.

Titan Secure Engine Lock

Titan Secure's engine lock is your ultimate vehicle theft prevention solution. This advanced, patented engine lock stops the engine from combusting, ensuring your vehicle cannot be moved without proper deactivation of the Titan Secure device.

Proactive protection

Prevents thieves from starting your engine and driving away with your vehicle.

Unbeatable security

Keeps your vehicle completely immobile unless unlocked by you or us.

Guaranteed immobilisation

Titan Secure's system guarantees your vehicle stays put by blocking the engine from starting.

Peace of mind
